

What have we been up to in 2023?

2 new members

1 new employee

2 EU-funded projects

We brought the Installers' Summit to the European Parliament

We successfully called for (1) national assessments of potential workforce gaps for the energy transition and (2) simplified installation procedures, such as for larger rooftop PV systems or heat pumps #RED #EED

We brainstormed with our members on concrete solutions for skills & worker shortages

We held our first Value Chain Dialogue with our closest industry partners and their European representatives

We worked with the negotiators of the Energy Performance of Buildings Directive to support the decarbonization of buildings #EPBD

We met with the Energy Commissioner to support a 35% electrification target with the Electrification Alliance
