

We switch Europe ON!

We are:

- **The one and only voice** of the electrical contracting sector at EU level!
- We represent **the professionals implementing the green & digital transition**, with our key focuses on: skills & labour shortages, electrification, energy efficiency, deployment of smart & renewable solutions
- Active **since 1954**
- **18 members*** in 16 European countries with equal rights
- Part of influential **European alliances & networks**
- Engaging on all key regulatory topics with **top EU policymakers**
- Coordinating 5 fully functioning **working groups**

**all members are national electrical contracting associations (sometimes they also represent the HVAC sector or other craftsmanship)*

Some of our latest policy achievements

Nov. 2023: Members meeting in the European Parliament (Brussels) for our annual conference

Feb. 2024: President Ursula von der Leyen meets with EuropeOn General Secretary and other stakeholders

Sep. 2024: Release of our guide to understand the Green Deal legislative evolutions, for members

Sep. 2024: Commission announces an Electrification Action Plan, as requested by EuropeOn and allies

What can EuropeOn bring you

ELECTRICAL CONTRACTORS ASSOCIATION

- **Strategic information to anticipate future trends at European level:** Get clear and first-hand access to information on European Union policies impacting your specific sector; Explore what other countries are doing
- **Networking & Best practices:** Join an enthusiastic community of like-minded associations across Europe (and beyond) who share your issues and can bring new ideas, through our 5 working groups, webinars and annual summit
- **Exposure & Influence:** Directly connect with EU policymakers and thought leaders to make your sector's voice heard; Shape EuropeOn's positions

Working groups: latest topics

- **Policy working group:** European Green Deal (especially Energy Performance of Buildings Directive), overview of the new Commission's workplan...
- **Technical WG:** AFDDs (arc fault detection devices), e-mobility & fire safety, standardisation...
- **Value Chain WG:** new [Sector Report](#), strengthening our position in the value chain...
- **Skills & attractiveness WG:** report on [workforce gap assessment](#), report on [awareness campaigns](#)...
- **Digitalisation WG:** *to be determined* (previously: BIM challenges)

Our members say it best:

Article from our Dutch member (26/4/2022):

- “In Brussels, we are stronger **together**”
- "This is in Brussels that laws that impact entrepreneurs are increasingly made. It's logical, because **digitization, labour market and decarbonisation issues do not stop at the national border**“
- “We are increasingly **sitting at the table in Brussels**”
- “We are also happy to **share our knowledge** internationally. We presented to the **EU Commission** how we want to tackle the shortage of technical professionals in the Netherlands and how the EU can help.”
- “We are represented as much as possible by our European umbrella organizations EuropeOn”

Julie Beaufile
General Secretary
